

SYSTEMS AND METHODS FOR PARTICIPANT CONTROLLED COMMUNICATIONS REGARDING FINANCIAL ACCOUNTS

ABSTRACT OF THE DISCLOSURE

[0073] Systems and methods for directing communications related to financial accounts.

5 Some embodiments include systems that access account information maintained in relation to an account group. One or more communication rules are received from a user, applied to the account information, and communications are formed based on the application of the communication rules. Various methods provide for receiving communication rules, and
10 applying the communication rules to account information to provide one or more communication outputs.
